Experience

Software Engineer I & II – Amazon Web Services

8/21 - Present, New York, NY (**TypeScript, Rust, Git, AWS**)

- Promoted to L5 on the open-source, infrastructure-as-code [Cloud Development Kit](#) team in Q1 2023.
- Building a next-gen language for defining infra with bidirectionality between CloudFormation and resource definition code.
- Own all aspects of [cdk-pipelines-github](#), a CI/CD solution backed by GitHub Workflows for deploying CDK apps to AWS. Project has 27 unique open-source contributors, 325+ GitHub Stars, 15,000+ weekly npm [downloads](#).
- Reduced the CDK module size from 255MB to 53MB by designing an end-to-end protocol for interacting with a compressed version of JSII assembly files that govern multi-language support and translation.
- Implemented a tool that generates a compilable example for every public CDK API in 5 target languages, either by sourcing existing examples in READMEs or generating synthetic ones. Exposed as [cdk-generate-synthetic-examples](#) with 3000+ weekly [downloads](#).
- Designed a bespoke incentive system called [CDK Merit Badgers](#) that assigns a badge to every open-source contribution received, as well as the underlying workflows that help guide 'beginning-contributors' to mentorship from tenured contributors.

Software Engineer Intern – Amazon Web Services

6/20 - 8/20, Seattle, WA (**TypeScript, Git, AWS Certified Cloud Practitioner**)

- Contributed features in Lambda, CloudWatch, Autoscaling, etc for the CDK.
- Fully owned all phases of the software development lifecycle for new CDK Construct modeling AWS CloudWatch Synthetics, launching it in Developer Preview a month ahead of schedule.

Senior Computer Science Instructor – Juni Learning

1/19 - 8/21, Remote (**Java, Python**)

- Cultivated student understanding in data structures, AP Computer Science, and USA Computing Olympiad (Bronze & Silver).
- Developed [curriculum](#) for a new Python Algorithms course, conducted diagnostic trial lessons, screened instructor applicants.

Education

Williams College – B.A., Computer Science

9/17 - 5/21, Williamstown, MA (GPA: 3.65, Computer Science GPA: 3.77, *Dean's List*)

- **CS:** Programming Languages (**Lisp, Scala, C++, Java, Rust**), Software Methods (**Swift**), Applied Algorithms (**C**), Theory of Computation, Algo. Game Theory, Algorithm Design / Analysis, Data Structures (**Java**).
- **Math:** Graph Theory, Linear Algebra, Discrete Math, Multivariable Calculus, Game Theory, Econometrics (**Stata, R**).

Columbia University – Visiting Student in Computer Science

9/19 - 12/19, New York, NY (GPA: 3.64)

- Microservices (**Python**), Advanced Programming (**C, C++**), Artificial Intelligence (**Python**), Databases (**Python, SQL**).

Projects

CryptoNight Code Words Game: www.cryptonight.codes – Personal

1/21 - 2/21 (**JavaScript, Bootstrap, Node.js, Express.js, Socket.io, MongoDB, AWS, nginx**)

- Built online multiplayer word [game](#) similar to Codenames where users team up to uncover bombs and avoid the 'cryptonight' word.
- [Features](#) include create/join room, single player lobby, live chat with stats by command, full gameplay, separate superhero/sidekick interface, suite of customizable settings and team selection, per game statistics, all-time leaderboard, and much more.
- Deployed production server on AWS EC2 with Elastic IP, AWS Route 53, and nginx to route both http and https traffic to the server.

Ticket to Ride Board Builder – Personal

3/20 - 5/20 (**Swift, XCode**)

- Built iOS [app](#) with MVC architecture that lets users build custom railroad network of cities and tracks.
- Developed underlying graph structure from scratch and implemented Dijkstra's algorithm to find shortest path between cities.

Leadership & Interests

Williams Ultimate Frisbee Organization – Captain

- '21 Donovan Award [finalist](#) (top DIII player in the country), 2nd-team All-Region honors '19, Freshman-of-the-year '18.

Additional Interests

- Ultimate Frisbee/Disc Golf, Award Travel, Sabermetrics, Ticket to Ride (board game), Poker, Chess, The Beach Boys.
